

# Follow Your Calling!

Transformative trainings for a powerful initiation into a purpose driven life

## Outdoor Women's Laboratory (Advanced-Training)

In Possibility Labs you change your relationship to inner blocks by getting deep insights into your true needs and hidden purposes. Through approaching your essential inspiration and applying practical tools and techniques of Possibility Management you pave the way for reviving your true vocation, no matter how big your vocation is. Possibility Labs provide a safe space for your ongoing initiation into responsible adulthood and into a purpose driven life. There are issues and processes you can only experience as a woman in the circle of women. Therefore we offer women's Labs and men's Labs in addition to the mixed Labs.

### And this women's Lab is again different!

Far from the technology and the hustle and bustle of everyday life as well as the usual structure of training rooms, this extraordinary women's Possibility Lab creates a training space for your inner nature. It is about reconnection with Gaia, about being with each other and about reactivating the female wisdom within us.

# Follow Your Calling!

Transformative trainings for a powerful initiation into a purpose driven life

This training provides space for a vision quest for the place of the archetypal feminine within you and in next culture. Many women feel the call of Gaia and do not know where to start, because the tasks seem so huge and overwhelming. This training is a gateway to connect you with the self-confidence, needed to step into your feminine force of clarity and responsibility and to put yourself into the unique place each of us has in society and nature.

## Welcome Home!

We will spend 4 days together in nature. There will be common and also quiet spaces in which you open your senses to get in contact with nature – your inner nature and nature outside. Here, you change your perspective of life, expand your capacity to love and connect yourself consciously with the source of female abundance and bliss. In close dialogue with Gaia the necessity for different group and individual processes will emerge, which are necessary to initiate transformation and healing for yourself and the collective.

If you feel called by this extraordinary training, then decide to attend without knowing how to do it.

Trainers: Patrizia Servidio, Katharina Kaifler

## LOGISTISCHE INFORMATIONEN FÜR DAS OUTDOOR FRAUEN LAB:

### LANGUAGE

The trainings in Germany are usually delivered in German. **However, if you are English speaking, we can convert the training at any time into a bilingual training.** Just contact us.

### DURATION

4 days, we begin on day 1 with silent sitting at 07:00 and end by 18:00 on the last day. *Possibility Labs* are alcohol-free trainings.

### PLACE

The Inner Nature Seminar Farm is the ideal setting for our Outdoor Women's Lab. It is located in the middle of the Bavarian Forest. The beautiful area with a large meadow, forest and creek is secluded and yet not far from the actual farm. There are different places outside (fire place, medicine wheel, etc.), but also a large tipi and a sweat lodge, where we can do processes that need a "covered" space. In case of very bad weather, there is the possibility to sleep in the barn in the hay.

### KOSTEN

597, — Euros (tax included, meals and lodging extra). Full time students (under 25 years old) discount: 50 %.

Since we share the food expenses, the cost for food per person is about 10,-- Euro per day. Although there is not the usual accommodation rate, there is a fee for using the infrastructure on the farm and the natural site of about 30,-- Euro per day and person (depending on group size).

### ANMELDUNG

Please see the Events Calendar at [www.follow-your-calling.org](http://www.follow-your-calling.org) or [www.nextculture.org](http://www.nextculture.org) for registration. With your registration you accept the GTC and Notes On Training Participation. Before you can register for a Outdoor Women's Lab you have to attend to the Basic Training Expand the Box and to at least 1 mixed Possibility Lab.

After registration we will send you a detailed logistic letter with a lot more information.
